

# NEW! GSM COMMUNICATOR

FOR REMOTE CONTROL OF BARRIERS AND AUTOMATIC GARAGE ELECTRIC DOORS - IOT  
AUTOMATION AND CLOUD SUPPORT - UNLIMITED NUMBER OF USERS

**Ladies and Gentlemen,**

I would like to represent you SMART DIALER-IoT - THE BRAND NEW universal GSM communicator used for REMOTE CONTROL OF BARRIERS AND AUTOMATIC GATES, GARAGE DOORS OR ELECTIC DOORS.

**Functionality:**

- UNLIMITED NUMBER OF USERS Via cloud system (CLOUD) can OPENED/CLOSED door or barrier or to be notified of these events, WEB, compatible with all mobile devices.
- UP TO 500 USERS after authorization via device SMART DIALER-IoT can control - barrier, gate, door by call (VOICE CALL) and / or SMS from a mobile phone.
- Five users can be notified for an event – OPENED/CLOSED by (VOICE CALL) and / or via SMS on a mobile phone.
- Send pre-recorded voice messages (For models with additional microphone included).

**Our advantages are:**

Quick setup for a minute via cloud system (CLOUD) by mobile or computer, or by SMS commands.

In case of servicing or/and device reprogramming, after a period of time, it's exceptional EASY and CONVINIENCE for the INSTALLATORS to do it REMOTELY without need to go to the place where the device is installed. This saves a lot of time and additional costs!!!

SMART DIALER - IoT is CE marked and notified according to quality management system EN ISO 9001: 2015.

## TECHNICAL PARAMETERS

**NEW!**

GSM COMMUNICATOR IOT AUTOMATION AND CLOUD SUPPORT  
UNLIMITED NUMBER OF USERS

TECHNICAL PARAMETERS	
Power Supply	9 ÷ 30VDC
Digital Inputs	1 input (activation with plus) 1 input (activation with minus)
Digital outputs	2 outputs (open collector, 1A max)
Microphone input	1 input
GSM module	850/900/1800/1900MHz
Consumption in IDLE mode	15mA
Consumption in IDLE mode	130mA
Operational Temperature	-40°C ÷ +85°C
Weight	90g
Dimensions	74mm x 64mm x 28mm

\* For models with additional microphone, built-in speaker and included battery:

Power Output 12VDC - I<sub>max</sub> = 60 mA, also available without external power supply Battery LiOn - 300 mAh

Set up from 1 to 3 minutes:

### 1 OPTION:

Via mobile phone or computer through the WEB portal - cloud.smart-hitech.eu or mobile applications for iOS or Android. In case of servicing or/and device reprogramming, after a period of time, it's exceptional EASY and CONVINIENCE for the INSTALLATORS to do it REMOTELY without need to go to the place where the device is installed. This saves a lot of time and additional costs!!!
