NEW! GSM COMMUNICATOR

FOR ELEVATORS WITH MICROPHONE AND SPEAKER AND BATTERY. FOR EMERGENCY VOICE COMMUNICATION. IOT AUTOMATION AND CLOUD SUPPORT.

Ladies and Gentlemen,

I would like to represent you SMART DIALER – IoT VOICE - THE BRAND NEW universal GSM communicator with microphone speaker and battery as a backup power supply, used in an emergency situation for fast, two-way voice communication between a stuck passenger in the elevator cabin and the company for maintenance, repair and production of elevators. Compatible with any type and brand elevators.

Five telephone numbers of the elevator company (users) can be notified by a call (VOICE CALL) and / or SMS notification, via Cloud System and to communicate with stuck passenger on emergency situation.

Our advantages are:

Remote and quick setup per minute via cloud system (CLOUD)

or

On site via computer or laptop, connected to the SMART DIALER IoT VOICE device via Micro - USB cable and setup tool.

Smart Dialer Service Tool, which must be pre-downloaded from our website:
www.smart-hitech.eu

In case of servicing or/and device reprogramming, after a period of time, it's exceptional EASY and CONVINIENCE for the INSTALLATORS to do it REMOTELY without need to go to the place where the device is installed. This saves a lot of time and additional costs!!!

SMART DIALER – IoT VOICE is CE marked and notified according to quality management system EN ISO 9001: 2015.

TECHNICAL PARAMETERS

NEW!

**GSM SMART DIALER - IOT / IOT VOICE
AUTOMATION AND CLOUD SUPPORT
UNLIMITED NUMBER OF USERS**

TECHNICAL PARAMETERS	
Power Supply	9 ÷ 30VDC
Digital Inputs	1 input (activation with plus)
	1 input (activation with minus)
Digital outputs	2 outputs (open collector, 1A max)
Microphone input	1 input
GSM module	850/900/1800/1900MHz
Consumption in IDLE mode	15mA
Consumption in WORK mode	130mA
Operational Temperature	-40°C ÷ +85°C
Weight	90g
Dimensions	74mm x 64mm x 28mm
* For models with additional microphone, built-in speaker and included battery: Power Output 12VDC - I _{max} = 60 mA, also available without external power supply 3.7V/300mAh Li-ion battery	

SET UP FROM 1 TO 3 MINUTES:

1 OPTION:

Via mobile phone or computer through the WEB portal - cloud.smart-hitech.eu or mobile applications for iOS or Android. In case of servicing or/and device reprogramming, after a period of time, it's exceptional EASY and CONVINIENCE for the INSTALLATORS to do it REMOTELY without need to go to the place where the device is installed. This

saves a lot of time and additional costs!!!
